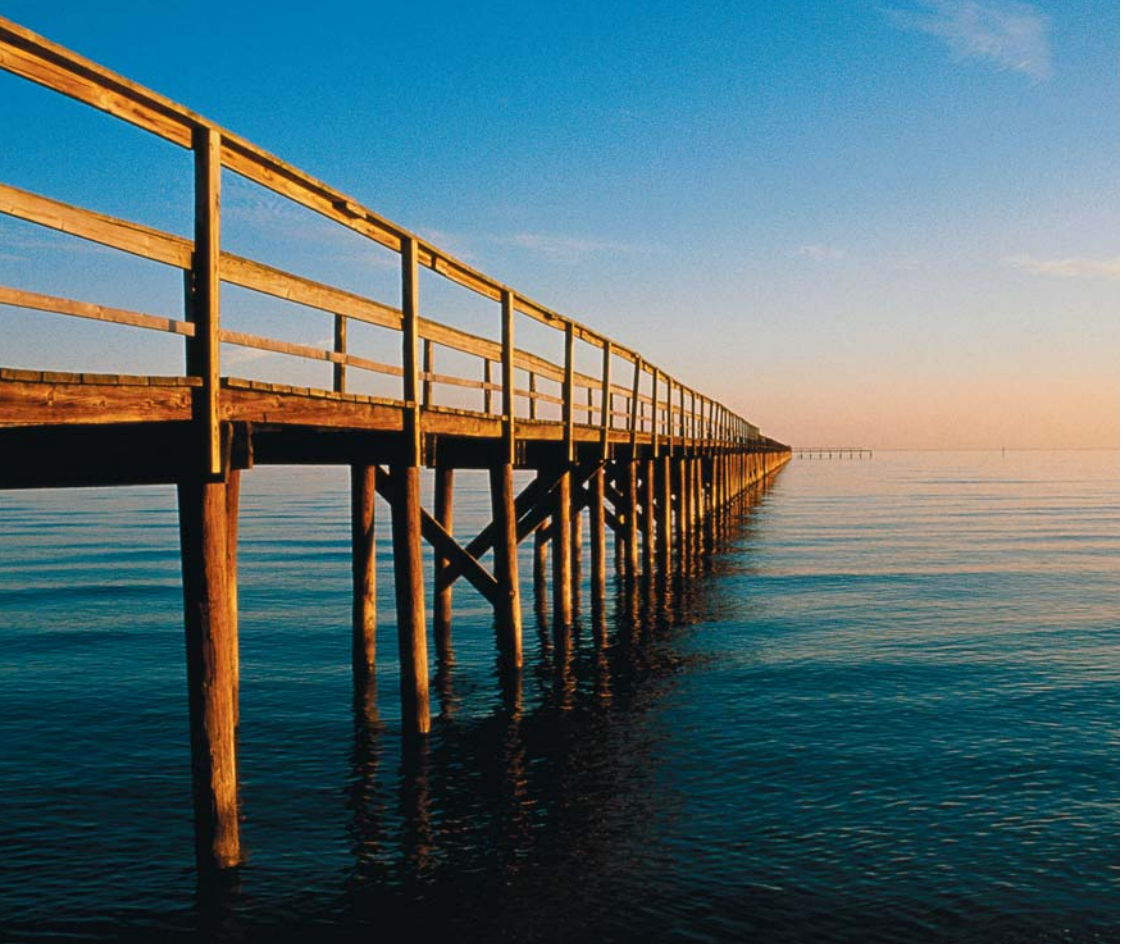
Discover a new world of colour and creativity



Explore the endless possibilities of the new digital world with Epson and prepare to change the way you communicate. Our photo and imaging products combine quality and reliability with easy operation and value. Add your imagination and virtually anything is possible.

Take control of the way you work, play and communicate with Epson. Add creativity, colour and fun to your home or home office with our range of printing, scanning and multimedia entertainment products.

It's so easy and affordable to print your own superb photos instead of waiting for high street labs to develop them. Or to transform old film and photos into high quality digital files, and even repair and restore them.

Why not use an Epson all-in-one to make copies, scan, print and fax without using a computer? Or relax in your home cinema and show movies, sports, photos, TV shows and even play your favourite games – all on the big screen.

Whatever you do, Epson never stops working to create the ultimate hardware, software, inks and media. Put them together and the possibilities are endless.

# Print the highest quality, most durable photos with the latest Epson inks. Designed to work seamlessly with our superb hardware, software and media, they ensure a perfect finish every time.

Epson inks are a crucial part of every Epson home studio. The difference is clear as soon as your photos emerge from your printer.

With Epson DURABrite™ Ultra ink you get no smudging, no fading, just simply perfect prints whatever you're printing.

And Epson's Claria photographic ink is specially designed for printing professional photos on Epson Glossy Photo Paper.

Epson inks give a superb, reliable performance right across the page. But our inks are not only built to make your photos look good, they are also built to last.

Photos printed with Epson inks are resistant to fading and even to water – protecting and preserving your memories for years to come.

In fact, photos printed using Epson Claria photographic inks will last in the family album for many generations.

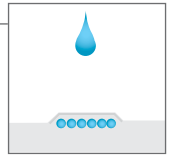
## Epson DURABrite™ Ultra ink

No smudging, no fading – simply perfect prints whatever you're printing

**More freedom:** resin-coated pigment technology allows you to print on any type of paper and ensures high durability

**Longer lasting:** photos are fade-resistant for years thanks to revolutionary pigment ink

**No smudging:** the ink is fixed to the surface of the paper, thanks to the resin coating



For use on Epson Stylus D78/D88 Plus/DX4000 Series/DX5000 Series/DX6000 Series/DX7000F.

## Epson Claria photographic ink

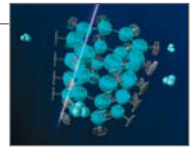
For rich, professional quality photos that last for 200 years*

**Fade resistance:** photos stay brighter for longer – comparable with photo-lab prints

**Preserve memories for generations:** photos last more than 200 years* in a photo album

**Deep gloss:** Epson printers and media work together for an unbeatable finish

**Resistance to ozone and smudging:** images stay as good as new for years to come, thanks to the denser molecules of the ink



For use on Epson Stylus Photo R265/R360/RX560.
* Test results are based on Epson test conditions.

*for more information, please visit www.epson-europe.com

**with optional Bluetooth® adapter

# Epson Perfection V10

Transform your photo collection into digital albums with this slimline introduction to photo scanning. It's so simple to scan in superb quality and even restore faded old photos at the touch of a button with Epson's Easy Photo Fix™ software.

**Key features:**

- Scan quickly and easily with four simple push buttons
- Reproduce images reliably with 3200dpi optical resolution
- New slimline design looks great and fits into any home
- Restore faded colour and remove dust specks automatically with Epson Easy Photo Fix™

# Epson Perfection V100 Photo

The slimline, high powered scanner for photo enthusiasts. Transform your old photos, film and slides into digital albums and even bring old faded photos back to life. With built-in Transparency Unit and Film Holder.

**Key features:**

- Make film scanning easy with the built-in transparency unit
- Easy to use key functions with four simple push buttons
- See the difference with 3200dpi optical resolution and 48-bit colour
- Restore faded photos and film automatically with Epson Easy Photo Fix™
- Use the film holders for confident scanning of 35mm film strips or mounted slides
- See the difference with acclaimed CCD technology

# Epson Perfection V350 Photo

This slimline scanner makes high quality photo and film scanning simple. You can digitise analogue archives, and revive old memories with Easy Photo Fix™. With a built-in Auto Film Holder for 35mm scanning.

**Key features:**

- Scan 35mm film at the touch of a button with the Auto Film Loader
- Capture amazing quality with 4800dpi and 48-bit colour
- Handle positive and negative film scanning with the built-in Transparency Unit
- Restore colour and clarity with new Epson Easy Photo Fix™
- A slimline, stylish addition to your desktop
- Stay ahead with superior CCD scanning technology

## Epson Perfection 4490 Photo

The ideal high performance scanner for the photo enthusiast. Scan your whole archive, including medium format film, with the built-in Transparency Unit. Automatically remove scratches, dust, dirt and fingerprints from film with Digital ICE™ technology.

**Key features:**

- A low cost solution for photo enthusiasts looking to archive, manipulate and print photos up to A3
- Scan a wide range of media and digitise your photo archives
- Scan 35mm film strips and mounted slides, and medium format film up to 6x12cm
- Restore faded, dusty or badly finished prints and film
- Capture every detail and tone with 4800dpi resolution and 48-bit colour
- Handle high volume scanning with the option Auto Document Feeder

## Epson Perfection 4990 Photo

The perfect flatbed scanner for serious photographers looking to digitise their back catalogues. Capture originals in amazing detail, restore faded and damaged film and keep control every step of the way with Epson Creativity Suite software.

**Key features:**

- Digitise originals faithfully with optical resolution up to 4800x9600dpi and 48-bit colour
- Restore faded photos and remove dust from film with Digital ICE™ technology
- Scan all common film types with the built-in Transparency Unit and large 8x10 inch flatbed
- Capture multiple images with ease e.g. 24x35mm frames, 8x35mm slides
- Manage, edit and share images with the Epson Creativity Suite
- Take creative control with additional high quality software

## Epson P-3000

Transform the way you store and view digital photos and movies with this compact, powerful image viewer. With its crystal clear Photo Fine Ultra LCD, it's perfect for sharing images with friends, but has the power and versatility to be a professional photo partner.

**Key features:**

- The total solution for viewing, sharing and managing your digital photos, music and movies
- Experience amazing colour and clarity with the 4" Photo Fine Ultra LCD
- Store thousands of images on the internal 40GB hard drive
- Connect to memory cards and digital cameras
- Work professionally with RAW data support
- Truly portable, with a high quality, durable aluminium casing

## Epson P-5000

This is the perfect digital partner for professional photographers. It's amazingly versatile, with a crystal clear 4" Photo Fine Ultra LCD for image viewing and management, and an 80GB internal hard drive for high capacity storage.

**Key features:**

- Take a brighter, clearer look at digital photos and movies on the crystal clear 4" Photo Fine Ultra LCD
- Manage and store thousands of files on the 80GB internal hard drive
- Get connected with integral CF/SD memory card slots
- Work professionally with RAW data support
- View a range of video formats including DivX
- Keep memories safe on the move with high quality, durable aluminium casing

# Epson EMP TWD3

Make big screen entertainment easy with this innovative all-in-one home projection system. It's an Epson projector, JVC DVD player and speakers in one box, so all you need to do is plug in the power, select your favourite DVD and get ready for the action.

**Key features:**

- Discover the all-in-one high quality, big screen home entertainment system
- Create superb moving and still images with Epson 3LCD technology
- Enjoy real home cinema with true 16:9 widescreen and HD compatibility
- Transform any room into a cinema – project a 60" screen from just 1.5 meters
